

# Hideaway

Berlin

Cool and so breezy  
Take it or leave it  
Keeping your distance  
Arrows to your heart just bounce away

Well I see you bleeding  
Your sad eyes are pleading  
The poison is spreading  
So cleanse yourself with tears of salvation

Forget the pain  
Hideaway in my arms  
Where's the shame  
Cry away there's no harm

Lost in a nightmare  
Falling through thin air  
Faster and faster  
Love is getting closer and closer

It's time that you wake up  
From haircuts and makeup  
No need to be frightened  
Trust in the love that you dream of

Forget the pain  
Hideaway in my arms  
Where's the shame  
Cry away there's no harm

You'll be my hero  
Start back at zero  
Throw off your mask  
Freedom at last  
Trust in a needed friend

It's time that you wake up  
From haircuts and makeup  
No need to be frightened  
Trust in the love that you dream of

You'll be my hero!!

Forget the pain  
Hideaway in my arms  
Where's the shame  
Cry away there's no harm

Forget the pain  
Hideaway in my arms  
Where's the shame  
Cry away there's no harm  
No harm!!

Forget the pain!  
Hideaway  
Where's the shame?

Oh, cry away!

Forget the pain,  
Where's the shame?  
Cry away!

Oooo, Oooo, Oooo, Oooo
