Berlin

So it's a numbers game  
Every number has a name  
Doesn't mean a lot to me  
I just know my number's 3  
Hear a voice on the other line  
Communication seems real fine  
Do I hear a dull detection  
We can't seem to make a connection

Sorry sir, your number's changed  
Your life is re-arranged  
New american terrorism  
[?] vandalism  
Doesn't matter how it's worded  
You give your life to the main circuit  
[?]  
& I'll tell you what you've been told

Information-someone's calling on the telephone  
Information  
Information-someone's coming & they wont leave me alone  
Information-I gotta get me some information

Operated by the operator  
Evaluated by a calculator  
If you call after 10  
you will have to call again
