

## Nice to Meet You

Berlin

I didn't know when I arrived  
I'd meet someone like you tonight  
I'm in my head paralyzed  
No way to display my better side

Spinning around in the dark  
You know you're what I'm looking for  
Say the words in my heart  
Tell me that you feel the spark

Cause I can turn a crush into a love  
In no time at all  
Cause we're both gonna die  
Not wasting all this precious life  
Not wasting my time  
Or waiting more  
Waiting all my life to start

It's so nice to meet you in the dark  
As long as it takes you and me to fall in love  
It feels so good to touch you in the dark  
As long as it takes you and me to fall in love

You didn't know the warning signs  
Dancing right into my soul  
Take the knife, cut my ties  
Should I stay or should I go  
I want to dance and feel the spark  
Can you feel the spark

Cause I can turn a crush into a love  
In no time at all  
Cause we're both gonna die  
Not wasting all this precious life  
Not wasting my time  
Or waiting more  
Waiting all my life to start

It's so nice to meet you in the dark  
As long as it takes you and me to fall in love  
It feels so good to touch you in the dark  
As long as it takes you and me to fall in love
