Time Heals Everything

Bernadette Peters

Time heals everything Tuesday, Thursday Time heals everything April, August

If I'm patient the break will mend And one fine morning the hurt will end

So make the moments fly Autumn, winter I'll forget you by Next year, some year

Though it's hell that I'm going through Some Tuesday, Thursday, April, August Autumn, winter, next year, some year Time heals everything, time heals everything But loving you

Though it's hell that I'm going through Some Tuesday, Thursday, April, August Autumn, winter, next year, some year Time heals everything, time heals everything But loving you
