

Coming Back (across The Water)

Bernard Allison

Baby I'm comin' back now can you feel me?
I know I been gone for way too long
But I ain't gonna hold back no more
My love for you keeps on growing strong

Baby I'm coming back across the water
Baby I'm flying high across the sky
Why can't we go no faster
Gotta creep inside my baby's bed tonight

Every time I look outside my window
Looks like such a long way down to me
But if I gotta jump down through the rooftop
I'm gonna make love to my baby 'fore I sleep

Comin' down the runway to my baby
I know that she is waiting there for me
And I ain't gonna hold back no more
My baby she's got everything I need

I'm comin' back across the water
I'm comin' back across the sky
Tell me can you feel me?
Comin' across the water
Tell me can you feel me?
Comin' across the sky
I'm comin' baby across the water
Baby I'm comin' across the sky
Can you feel me baby?
Can you feel me?
