

Just Do Me Any Way You Want

Bernard Allison

You been messin' around on me for so long
My friends around town telling me what's going on
But I don't care what they might say
I'm gonna love you girl until my dying day

Just do me any way that you want to do me
Just do me any way that you want, yeah
Just do me any way you want to do me
Just do me any way that you want, yeah

You been spending my money and driving my car
You been using me girl right from the start
But I found out your wicked ways
Your playing on me what can I say, yeah

Just do me any way that you want to do me
Just do me any way that you want, yeah
Just do me any way you want to do me
Just do me any way that you want, yeah

Girl I know your using me
Like a carpenter use his tool
When I found out it was much too late
I was all ready hooked on you

Girl I know your using me
Like a carpenter use his tool
When I found out it was much too late
I was all ready hooked on you

Just do me any way that you want to do me
Just do me any way that you want, yeah
Just do me any way you want to do me
Just do me any way that you want, yeah
