

# Down To The River

Bernard Fanning

Ride out the storm  
Take on the wave  
Don't run, run, run  
The wind's gonna blow and the ground's gonna shake  
Then it's gone, gone, gone

If I ask you tenderly, will you follow me down to the river?  
I'll let you down, I'll break your wings  
If you follow me down to the river

Try not to mourn  
Shake off the pain  
Don't run, run, run  
The world's gonna spin and the earth's gonna quake  
Then it's done, done, done

If I ask you tenderly, will you follow me down to the river?  
I'll let you down, I'll break your wings  
If you follow me down to the river

Follow me down  
Follow me down to the river  
Follow me down  
Follow me down to the river  
Follow me down  
Follow me down to the river

I've got it all, all ahead of me now  
A pattern's gonna form and the wind's gonna blow me down

Ride out the storm  
Take on the wave  
Don't run, run, run  
The wind's gonna blow and the crowd's gonna break  
Then it's gone, gone, gone

If I ask you tenderly, will you follow me down to the river?  
I'll let you down, I'll break your wings  
If you follow me down to the river

Follow me down  
Follow me down to the river  
Follow me down  
Follow me down to the river  
Follow me down  
Follow me down to the river
