

Further Down The Road

Bernard Fanning

I'm not afraid to say
I've had my ups and downs
On any other day
I'd run me out of town
Now I'm standing in the middle of a good dream
Try'n to figure what I do and don't need
Hoping I can give myself a good chance
Not too proud to show the spirit that I once had I

I guess we'll wait for the night to fall
we'll Sleep right through to the breaking dawn
I guess we'll find out further down the road

Will I have the strength to take
the opportunity when it comes
Am I laid to waste if I lose my nerve and run
Now I'm standing in the middle of a good dream
waiting on a number that I can't reach
Hoping I can give myself a good chance
And not too proud to say I'd love a little romance

I Guess we'll wait for the night to fall
We'll Sleep right through to the breaking dawn
I Guess we'll find out further down the road

Ooh well I never let love sink its claws in me
Ooh all I ever asked was happiness for you

Now I'm standing in the middle of a good dream
Waiting on a number that I can't reach I

I guess we'll wait for the night to fall
We'll sleep right through to the breaking dawn
I guess we'll find out further down the road

This feeling's worth its weight in gold
Just Praying for it to unfold
I guess we'll find out further down the road
