

Grow Around You

Bernard Fanning

Shut out the light pull down the shade
Rest your bones by the fire
Watch it burn through your pain
Let it warm your desire

We'll take our time to soothe the scars
Let them serve to remind us
That troubles always leave their marks
Soon enough they'll be behind us

I will throw
I will throw my love
Around you
Let it grow
Let it grow my love
Around you

I will chase away the things that make you weep
If you promise to come back to me complete
