# Looking For Love

**Bert Jansch**

When you're feeling lonesome
I'll tell you what you do
Pick up the phone and tell me
Don't be alone and blue
Pick up the phone and call me
I'll come running straight to you
If you're looking for love
I've got a cure for the lonesome blues.

When the sky above you
Is cloudy and grey
Pick up the phone and call me
I'll brighten up your day
Pick up the phone and call me, honey
I'll come running straight to you
If you're looking for love
I've got a cure for the lonesome blues.

Morning brings the sunshine
Night-time brings the blues
I can bring you lovin'
Honey you can't lose
Pick up the phone and call me
I'll come running straight to you
If you're looking for love
I've got a cure for the lonesome blues.

When you're feeling lonesome
I'll tell you what you do
Pick up the phone and tell me, honey
Don't be alone and blue
Pick up the phone and call me
I'll come running straight to you
If you're looking for love
I've got a cure for the lonesome blues.
