

## Adore Me

Bertine Zetlitz

Bobbie's running naked through the woods again  
And no one told her this was just a trick  
Bobbie's running naked through the woods again  
Or else we said your mother will get sick

Chorus:

You know you're here just to adore me, yeah  
Don't you know you're here just to adore me  
Yeah

Bobbie's running naked through the woods again  
Or else we said your mother will be dead  
Bobbie's running naked through the woods again  
So scared of all the good things that she said

Chorus

Knock knock knock knock knocking  
Knock knock knock knock knocking  
Bobbie's running barefoot over firewood  
She says it's all about being alive  
Bobbie's running barefoot over firewood  
She tends to know the minute to arrive

Chorus

You were here before me  
Your job to adore me  
I'm here for a reason  
You're just for the season  
You can be my master  
To avoid disaster  
I will bring my needle just in case
