

## For Fun

Bertine Zetlitz

I will step up in your face  
I will put you in your place  
I'll say things you can't erase  
And I'll do it all for fun  
I will frame your phoney smile  
Let you hang there for a while  
Then I'll make you scream a mile  
And I'll do it all for fun  
I will make your eyes grow tired  
I will suffocate your skin  
Call your work and get you fired  
When you play I'll let you win

Chorus:

And I'll do it all for fun  
Yeah, I'll do it all for fun  
Make you wish you had a gun  
Yeah, I'll do it all for fun  
I won't answer when you call  
Overlook you, though you're tall  
Almost catch you when you fall  
And I'll do it all for fun  
What is yours you'll never get  
What you gave, you will regret  
You will never win this bet  
Cause I'll do it all for fun  
I will make your soft hands tremble  
I will make your ego burst  
Anything you will resemble  
I will always get there first

Chorusx2

You always understood my mind  
I'll never leave you far behind  
As long as you recognize  
My footsteps  
I'll let you sweep across my knees  
Just like a gentle summer breeze  
As long as you  
Recognize my footsteps  
I will make your soft hands tremble  
I will make your ego burst  
Anything you will resemble  
I will always get there first
