

For Fun

Bertine Zetlitz

I will step up in your face
I will put you in your place
I'll say things you can't erase
And I'll do it all for fun
I will frame your phoney smile
Let you hang there for a while
Then I'll make you scream a mile
And I'll do it all for fun
I will make your eyes grow tired
I will suffocate your skin
Call your work and get you fired
When you play I'll let you win

Chorus:

And I'll do it all for fun
Yeah, I'll do it all for fun
Make you wish you had a gun
Yeah, I'll do it all for fun
I won't answer when you call
Overlook you, though you're tall
Almost catch you when you fall
And I'll do it all for fun
What is yours you'll never get
What you gave, you will regret
You will never win this bet
Cause I'll do it all for fun
I will make your soft hands tremble
I will make your ego burst
Anything you will resemble
I will always get there first

Chorusx2

You always understood my mind
I'll never leave you far behind
As long as you recognize
My footsteps
I'll let you sweep across my knees
Just like a gentle summer breeze
As long as you
Recognize my footsteps
I will make your soft hands tremble
I will make your ego burst
Anything you will resemble
I will always get there first

Chorusx2
