

Let Armies Loose

Bertine Zetlitz

Keep your feet off my yard
Or I let armies loose
Keep your feet off my yard
Or I let armies loose
I do not leave an option
There are times you can not choose
And if this last forever
You got nothing left to loose
Keep your feet off my yard
Or I let armies loose
Keep your feet off my yard
Or I let armies loose

(chorus)

I'll follow you softly
When I whisper it's gently?
You will see I've all your
Troubles on my mind
I'll be watching you closely
Like a shadow on rose leave?
You will see I've all your
Troubles on my mind
In my room I have dogs
They do as they are told
In my room I have dogs
They do as they are told
And if they catch you staring
They will make your laughter old
Yeah if they catch you staring
They will make your blood run cold
In my room I have dogs
They do as they are told
In my room I have dogs
They do as they are told

(chorus)

I'll follow you softly
When I whisper it's gently
You will see I've all your
Troubles on my mind
I'll be watching you closely
Like a shadow on rose leave
You will see I've all your
Troubles on my mind
Aples fall in my yard
And poison just for you
Aples fall in my yard
And poison just for you
It does sound rather nasty
These games we have to play
It will be over quickly
No doctor calls today
When you eat I'll be sweet
And finally we're through
When you eat I'll be sweet
And finally we're through
And finally we're through
And finally we're through
(chorus)

I'll follow you softly
When I whisper it's gently
You will see I've all your
Troubles on my mind
I'll be watching you closely
Like a shadow on rose leave
You will see I've all your
Troubles on my mind
...softly...gently
...all your troubles on my mind
...closely...rose leave
...all your troubles on my mind
