

# Obsession

Bertine Zetlitz

Sure she's got an innocent face  
Sure she's got an eminent grace  
Soon you see that every trace  
Is gonna' lead right back to you

Surely she's been planning it all  
Girls will often do when they call  
They don't even bother to fall  
They are easily seen through

I have seen her flushing her pills  
She has got some eminent skills  
Always came along for the thrills  
It's all leading back to you

Money, where there's none to be found  
She is always fooling around  
Draggin' anyone with her down  
You will never have a clue

Honey if you want to  
I will take you dancing in the rain  
You're my obsession

Honey if you'd like to  
I will show you this is not in vain  
My sweet regression

Honey you don't know her at all  
Never know if she's gonna' call  
Never know if she's gonna' stall  
And then lead them back to you

Often you'll regret she is there  
Often you'll forget why you stare  
Even though you know it's not fair  
And you're easily seen through

Honey if you want to  
I will take you dancing in the rain  
You're my obsession

Honey if you'd like to  
I will show you this is not in vain  
My sweet regression

You're the only one I ever  
Made a home for in my heart  
I just adore you

You're the only one who always brings  
Me closer to a stop  
There's no before you

Honey if you want to  
I will take you dancing in the rain  
You're my obsession

(obsession, obsession)

Honey if you'd like to  
I will show you this is not in vain  
My sweet regression  
(obsession, obsession)

You're the only one I ever  
Made a home for in my heart  
I just adore you  
(obsession, obsession)

You're the only one who always brings  
Me closer to a stop  
There's no before you  
(obsession, obsession)

Honey if you want to  
I will take you dancing in the rain  
You're my obsession  
(obsession, obsession, obsession)

Honey if you'd like to  
I will show you this is not in vain  
My sweet regression

You're the only one I ever  
Made a home for in my heart  
I just adore you

You're the only one who always brings  
Me closer to a stop  
There's no before you
