## **This Time**

## **Bertine Zetlitz**

So you told me I was changing Played your darkest card Let it slip too far Said my love was too demanding

Then you told me we were drowning Deeply lost at sea You were blaming me Yeah you told me we were drowning, drowning

The higher we climb
The harder we fall
Guess you didn't want me after all
So close to the sun
The dangerous fun

This time

The higher we climb
The further we stray
Guess you didn't want me anyway
The higher we climb
The harder we play

This time

Then you asked me to stop shaking Said I made it hard You'd might fall apart So I asked you to stop faking

Yeah you told me I was slipping
Way beyond repair
Guess you took me there
Wish I knew that I was tripping, slipping

The higher we climb
The harder we fall
Guess you didn't want me after all
So close to the sun
The dangerous fun

This time

The higher we climb
The further we stray
Guess you didn't want me anyway
The higher we climb
The harder we play

This time

The higher we climb
The harder we fall
Guess you didn't want me after all
So close to the sun
The dangerous fun

This time

The higher we climb
The further we stray
Guess you didn't want me anyway
The higher we climb
The harder we play

This time
