

# The Way I Love You Now

Bertolf Lentink

You came to me when I felt lonely  
Chased away my melancholy  
You could be my one and only  
The way I love you now

No-one did me like you do me  
You brightened up all that was gloomy  
And other girls mean nothing to me  
The way I want you now

Well, we've all been in love before  
Saw so many of failed endeavour  
Well I guess nothing's really sure  
Maybe nothing lasts forever

Don't lie to me, cause I'll believe you  
I will do what it takes to keep you  
Cause I can't see me ever leave you  
The way I love you now

Really wish this would never pass  
But there's just no way of knowing  
I'm so tired of fleeting love  
Wanna keep this feeling going

All my life I want to love you  
The way I love you now  
Yeah, the way I love you now  
The way I love you now
