

## Chalice Of Truth

Besatt

The master of all evil  
That hey call him  
The throne in colour of night  
Insignia of skulls at the foot of throne  
So open gates of the hell  
The land of bestial lust  
I cross threshold of madness  
I am comind my master

Death hugs me  
I cast away her cold hand  
This is time of mastery  
I am the god - now and here  
I drink up liquid of wisdom  
They called me the evil  
I am the evil  
And so what of it!!
