

## Seven Great Plagues

Besatt

They knell by the sea of glass  
And play on the harp of God  
Hosts of opponents of the beast  
666 is its name  
And when the sun rised, there was a mark in heaven  
The temple of tabernacle and certificate has opened  
Seven angels with plagues came from the gate  
They were dressed with linen and gold

One of the wild animals brought the charms  
Seven charms full of anger  
The temple filled with dense smoke  
And the voice said: pour the anger from charms on earth

Seven angels left the plagues  
People of beast got a malignant ulcer  
Seas and rivers became purple  
From the blood of animals living there  
There was a heat and sun burned with fiery touch  
And then came a sinister, impenetrable darkness  
Demons came from the mouth of dragon and Beast  
Cities were destroyed by storms and earthquakes

Seven great plagues - the anger of God  
Seven great plagues - thrown on earth  
Seven great plagues - blow's been given
