

## A Last Farewell

Beseech

My last second an angel came  
Time has come to say goodbye  
A coldness began to creep inside  
We must leave before the night  
Tears started to fall like autumn leaves  
Now it's time to go

A last farewell this day  
When the angel came for me

Where your soul should belong  
What if it's not the world I dreamt of  
There is no way back  
I'm afraid of what will come  
Now you'll face your sins

A last farewell this day  
When the angel came for me
