

Blinded

Besech

I remember a star
A star I still can see
One among the others
That shined so gracefully
I wish you stoped me
And embraced my soul
But now it's too late
And tomorrow I'll be gone

I was blinded by your lies

Lost in the shadows
Of sins I made for you
The love you gave
Is no longer mine
Even when you're gone
The light will shine on
My memory of you
Will never go away

I was blinded by your lies
