

## Come on In

Besech

today is the day  
you reveal yourself to me  
please don't speak  
cause i'll greet you, i'll greet you with my kiss

i watched you from my corner  
i felt your eyes from here  
i knew that i adored you  
when you heard, when you heard me say

come on in, come on in to my world tonight  
i want to feel you, feel your life through mine  
come on in, come on in to my world tonight  
i want to see you, see your eyes catch the sun

just think about all we will go through  
it'll take time  
a lifetime  
a lifetime to proceed

i open my life wider  
i crawl inside your skin  
you make my body shiver  
when you hear, when you hear me say

come on in, come on in to my world tonight  
i want to feel you, feel your life through mine  
come on in, come on in to my world tonight  
i want to see you, see your eyes catch the sun
