

## Neon Ocean

Besech

Cold and lonely, all by myself  
The winter caresses my soul  
Freezing, the dark is calling me  
Makes me dream of...dream of you

Stolen from life within  
You will find something on your own  
Falling inside my dream  
Makes me dream of...dream of you

Can you feel the magic in my soul  
This neon ocean flowing through my heart  
So if you can hear me let me know  
'Cause I can show you oceans that you need  
The oceans that you need
