

This Is Real

Best Coast

I know that we were meant to be
'Cause all this time you've been chasing after me

And though I know that we'll fight
In the middle of the night
Come to me and we'll talk, we'll talk and oh
We won't scream and we won't shout
Because you love me
I know that this is real

All my friends they hate you
But they don't even get to know you

And though I know that we'll fight
In the middle of the night
Come to me and we'll talk, we'll talk and oh
We won't scream and we won't shout
Because you love me
I know that this is real

And though i know that we'll fight
In the middle of the night
You'll come to me and we'll talk, we'll talk and oh
We won't scream and we won't shout
Because you love me
I know that this is real
