## **Storming Vengeance**

## **Bestial Warlust**

I am the vengeance, I am the hate
We are the demons, that are storming heavens gate

Attack, charge, kill Bring down the walls Burn down the crosses Make the women whores

(We) bring blood to the streets, and death to the peace Burn down their laws, and tear down their Gods

Attack the pearly gates
Smash them to the ground
Tear down their thrones
Bring the Gods down
The flames of burning churches
Lights a brave new world

But still there is war, and their helter helter And still there is blood, 'cause we bring helter skelter

War storming vengeance Stormtrooping hate Skull fucking violence Violent fucking hate

[Repeat Chorus]

[Repeat 1st Verse]

Attack, Charge, Kill Bring down the walls Burn down the crosses Make them fucking ours

(We) Bring blood to the streets, and death to the peace Burn down their laws, and tear down their Gods

Attack the pearly gates Smash them to the ground Tear down their thrones Bring the Gods down
