

Feed The Dogs

Betchadupa

My body's old
I'll sleep it out
And now i'm tired
Open my eyes
Last week was like
A starry sky
And all my friends
Are in my band
Family's gone
They've said goodbye
And left you home
To feed the dogs
And mind the house
Turn off the lights
It gives me inspiration to write
17, my eyes are green
I like to walk along the beach
Don't talk to me
I'm meeting Joe
In Remuera
Now it's quiet
Its late at night
And i'm alone
Here with myself
Don't talk at all
Say goodnight
But no one cares
No one at all
For days extreme
Insane is what i mean
Your head enclosed
Its safer on your own
I'll wait, you'll see
I'm stronger now it seems
Cute day explodes
I know
