Good Night Good Morning

Beth Ditto

Are you listening very carefully
Close your eyes and come with me
To go where the evening comes undone
Late at night in the city streets
I feel the need to see the streets
I go where you'll always find someone yeah

Is it good night, is it good morning Is this real life, are you performing You're like a vision I can't control We're in a movie I'm playing a role

I can be by myself sometimes
But I won't be by myself tonight

The sun comes out and suddenly Something's happening inside of me I wanna now where the silence has come from

Is it good night, is it good morning Is this real life, are you performing You're like a vision I can't control We're in a movie I'm playing a role

I can be by myself sometimes
But I won't be by myself tonight

I can be by myself sometimes
But I won't be by myself tonight

Oh no, Oh no, Oh no, Oh no, Oh no, Oh no, Oh no

Good night, good morning Good night, good morning Good night, good morning
