## **Baddest Blues**

My love has come along My dreams become a song My days are bright and sunny Funny why all so blue

The man is like a drug humiliated I can't get enough Love in all its splendor Surrender its every blow

Baddest blues that I know

This is love, what was I thinking? This is love, what the hell am I, am I gonna do? And that man, he got me sinking To the bottom of the blue

It's what I choose Love is the baddest blues

The joy versus the pain No, my joy, it ain't the same So I put it plain and simple Just like front page news

Love is the baddest blues Love is the baddest blues

This is love, what was I thinking? This is love, what the hell am I, am I gonna do? And that man, he got me sinking To the bottom of the blue

Guess that I, I'll lose Love is the baddest blues
