

# Beautiful Child

Beth Hart

You make me laugh you make me sing  
You make me want to give you everything in life that I never had  
You say the sky is all vanilla  
And you swear there's a gorilla  
Living in the bubbles of your bath

But now that you're here what mattered has shattered I'm shattered for good

Just remember my beautiful child  
We're just here for a little while  
So live like your dying and laugh till you cry  
And love yourself like I do my beautiful child

You say there are monkeys in the trees  
You want to feed them some of your frozen peas  
'Cause monkeys get hungry too  
Can't wait to see when you turn three  
The infinite possibilities popping  
Like popcorn inside of you

But nothing before or after could ever bring laughter like yours

Just remember my beautiful child  
We're just here for a little while  
So live like your dying and laugh till you cry  
And love yourself like I do my beautiful

You will crash, you will burn  
When you do you will learn  
Just like me in my youth  
Search the trash for the truth  
When the streets make you think  
There's no god down this deep  
If it don't cure you  
It will surely make you smile

Just remember my beautiful child  
We're just here for a little while  
So laugh like you're crazy and dance in the aisle  
And love yourself like I do my beautiful  
Just remember my beautiful child  
We're only here for a little while  
So live like you're dying and cry till you smile  
And love yourself like I do  
Forgive yourself if you have to  
And choose yourself cause I do  
Never loose yourself cause I love you my beautiful child  
My child, my child  
Love yourself like I do my beautiful child
