

Favorite Things

Beth Hart

Laughing till it pisses everybody off
Pulling up my dress at a dinner meeting
Kissing till my lips are ready to fall off
Screaming all night then just say I'm singing

Yeah these are some of my favorite things
Gold butterflies and gum on a string
Yeah these are some of my favorite things
But doing nothing is my favorite one

Cashing in on the glory of my biggest mistakes
Fading in the grass basking in the sunlight
Go and say to mama I'll just drive 98
Hold her in my arms tell her I'll be alright

Breath in faith and hope and a big fat cigarette
Drowning in the wine having no regrets

Yeah these are some of my favorite things
Don't ask me why

Gold butterflies and gum on a string
Get me high
Yeah these are some of my favorite things
But doing nothing is my favorite one

It's not the life I thought it would be
But I'll be alright I know I will be
So long to circumstance

Cashing in on the glory of my biggest mistakes
I'm fading now at last basking in sweet sunlight

Yeah these are some of my favorite things
Don't ask me why
Gold butterflies and gum on a string
Get me high
Yeah these are some of my favorite things
But doing nothing son is my very favorite one
But maybe loving you now is my favorite one
My very favorite one
