Mechanical Heart

Beth Hart

I was born with a mechanical heart
Miles of wires and video parts
If only I had a human touch
I'd give you the love you deserve so much

And if heaven's way up in the clouds, way up in the clouds
For you I'm gonna bring it all down, I'm gonna bring it all dow
n

I will be your aeroplane
Give you the world and watch you dance in Spain
Fly you way above the stars
And show you what you are
In my mechanical heart

Love it cannot be programmed
I'm sorry to say this is all that I am
Computer screens and new touch phones
Can't hold your hand or take you home

And if heaven's way up in the clouds, way up in the clouds
I swear I'm gonna figure it out, I'm gonna figure it out

I will be your aeroplane
Give you the world and watch you dance in Spain
Fly you way above the stars
And show you what you are
In my mechanical heart

I'll bring heaven to you
I'll bring heaven to you
I'll bring heaven to you
You, you

And if heaven's way up in the clouds, way up in the clouds
It's waiting on you now, on you now

I will be your aeroplane
Give you the world and watch you dance in Spain
Fly you way above the stars
And show you what you are
In my mechanical heart

I was born with a mechanical heart
Miles of wires and video parts
