

Stay

Beth Hart

So suddenly it rolls by again
Soft as a breeze and light as the wind
Don't say goodbye and don't dry these tears
If I could fly we'd fly away from here

So don't let go
Just come along now
Just say so
It won't be long now
It's all right
This ain't no lie
It's right on time

Petals of rose I touch your hair
Heaven knows I love you here
Beautiful smile covets the time
I feel so fine I feel so fine
On my way
Come along and stay

When I was young just a little girl
I'd sing to the sun and dream with the world
Now I got a suitcase full of memories
If I could show you maybe you'd stay with me

Stay with me

So don't let go
Just come along now
Just say so
It won't be long now
It's all right
This ain't no lie
It's right on time

Petals of rose I touch your hair
Heaven knows I love you here
Beautiful smile covets the time
I feel so fine I feel so fine
On my way
Come along and stay
