Summer's gone
Days passing by again
Chill rushes in sin
Come take me away my friend

I don't wanna take too long
Grab my summer smile and I'll be along

'Cause we're gonna
Ride ride ride through the valley
Roll roll in the fields I swear
Fly fly fly with the deepest part of our hearts

Are you ready to start Let's get the hell outta here Hell on outta here

And if I get lonely

If I get thirsty for the sun

I'll roll down my window

I can feel the road she's my only one

I ain't gonna waste my time no way Get me outta here and I'll bring the wine

'Cause we're gonna
Ride ride ride through the valley
Roll roll in the fields I swear
Fly fly fly with the deepest part of our heart

Are you ready to start Let's get the hell outta here Hell on outta here

Ride ride Roll roll roll We're gonna fly fly on outta here

I ain't gonna waste my time no way
Get me outta here and I'll bring the wine

Summer's gone
Days passing by again
Chill rushes in sin
Come take me away take me away

Ride ride ride hell on outta here Roll roll roll hell on outta here We're gonna fly fly fly on outta here
