

# I Can See Me Loving You

Beth Nielsen Chapman

I can see me loving you  
You can show me how  
There is nothing I won't do  
We can start right now

I can see me loving you  
When we're old and gray  
Ups and downs, and joy and blues  
Laughing all the way

Born into this world of darkness  
Every child would be  
Always reaching towards the light  
Every living, breathing soul  
Unfolds this mystery  
Gently roll into that good night

I can see me loving you  
See you loving me  
In each moment  
Shining through all eternity

Take my hand and walk with me  
Our love will abide  
Pass the point of no return  
To the other side

Might wake up some day  
And wonder what life's coming to  
Is this good as love can be?  
All I know is from the moment  
I laid eyes on you  
You're as far as I can see

I can see me loving you  
See you loving me  
In each moment  
Shining through all eternity
