

I Will Know Your Love

Beth Nielsen Chapman

Shone from this
Star to guide me
Sung through my
Silent heart
Like a tender kiss
So deep inside me....
Ten thousand nights of darkness
In the ether underneath this garden
You are my heart's calling....

One star in a million
One voice in a thousand
I will know your love
I will know your love

I've sailed on this ocean
So long alone
But i will know your love
I will know your love

I'll know... Your voice
I'll know... Your touch
I know... This much
I know I'll know your love

One chance that'll come by
One dance in your arms
And I will know your love
I will know your love

[Instrumental]

The tender kiss
Deep from the soul
For only this
The heart unfolds

One star in a million
I've got a feeling
I will know your love
I will know your love
I will know your love
