

More Than Love

Beth Nielsen Chapman

Flowers Deep inside our single heart
All the roads to Heaven start
Sun and moon shall fall and rise
Every day begins baptized
Stay with me here, go with me there
Nothing to fear, lighter than air
And with this vow, blessed from above
This is about more than love
More than love
Struggles, trials, tears and pain
Storm through life like clouds of rain
Hope and grace and peace abide
Shining from the other side
Follow the song into the dance
It won't take long given the chance
Soon we'll find out what we're made of
This is about more than love
