

# Touch My Heart

Beth Nielsen Chapman

(Beth Nielsen Chapman/Mat Rollings)

There are songs I love that catch my breath

When the first chord starts to play  
Effortless and true, it's funny but I knew  
You would always touch my heart that way

And it hurts so much to let you go

And there are no words to say  
But the corner of your smile says all I need to know  
You could always touch my heart that way  
Sail on my love, life is only a blink in time

Go on and show all those stars what it means to shine

Like a fire that spins inside a spark  
As the ashes cool to grey  
Kicked up by the wind, dancing through the dark

You will always touch my heart that way  
Instrumental

Sail on my sweet love, this world is a blink in time  
Go on and show all those stars what it means to shine

And I know your love is here with me

I can feel you every day  
Even if the beauty of your face I cannot see

Only you could touch my heart that way  
You can always touch my heart that way
