

Walk In Glory

Beth Nielsen Chapman

Come on out, come on out in the sunshine, baby
Come on out and trust yourself
Come on out, come on out in the sunshine, baby
Put your blues up on the shelf

I just want to wrap my arms around you
But I will never hold you down
I been waiting on the day I see you kick some dust up off the ground
When you step out of the shadows
Step out of the shadows
Step out of the shadows
Step out of the shadows, you're gonna walk in glory

Come on out, come on out of the darkness
Show the beauty in your soul
Feel your heart pounding
Let the rhythm and the breath of life unfold

I just want to wrap my arms around you
But I will never hold you back
Come on come on come on you've got to cut yourself some slack
Step out of the shadows
Step out of the shadows
Step out of the shadows
Walk in glory

All you really need is what you've got right now
Shine your light and tell your story
All god's children got to walk in glory

I'm just gonna wrap my arms around you
But I will never hold you back
Every little dream has got a string attached
When you step out of the shadows
Step out of the shadows
Step out of the shadows
Walk in glory
