

## Best Bit

Beth Orton

From a soul i found some pride  
Only found this after she died  
From a woman i acquired such grace  
Everybody seemed to want to take her place

The best part to life it seemed  
The best part of life was a dream  
The best part to breakin' up  
Is when i'm wakin' up to see  
Reality never lives up to all that it used to be  
Never seemed quite what it use to seem

Wasn't sure it was never quite clear  
What the hell was happening all around here  
Never seemed to make much sense  
All that fuss for just a lack of common sense

The best part to life it seemed  
The best part of life was a dream  
The best part to breakin' up  
Is when i'm wakin' up to see  
Reality never lives up to all that it used to be  
Never seemed quite what it use to seem  
Can not be all that it used to be  
You're not as quiet as you used to be

What did you seem?  
What did you mean?
