

## Dawnstar

Beth Orton

There is starlight burning in our hearts tonight  
Hear the moonlight speak your name  
We're a long way hidden from the cold tonight  
I see the dawn star falling where you are

You knew the cause  
You knew the undertaking  
You fought the law  
There's always something else we need  
But our love is gaining speed, gaining speed  
Now love is gaining speed

When the weather was young the landscape out of reach  
And I was lonesome for your love  
Well we're a long way from somewhere we have ever been  
And I am thankful what we have is enough

And won't be ashamed to wear it on the outside  
wear that on the outside... of my dreams  
Our love is gaining speed, gaining speed, gaining speed  
love is gaining speed, love is gaining speed  
love is all we need, love is gaining speed
