

# Galaxy Of Emptiness

Beth Orton

The stars light a sky  
On a galaxy of emptiness tonight  
Though I'm happiest  
When there's no reason for me to be

With no one's expectation to weigh heavy on my heart  
And so much hope it sometimes tears me all apart  
Won't you please  
Knock me off my feet for a while?  
Could you please  
Knock me off my feet for a while?

'Cause there's a galaxy of emptiness tonight  
A whole galaxy of emptiness tonight  
A galaxy of emptiness tonight

The stars light a sky  
On a gutter full of broken dreams tonight  
Though I'm not content, that's the way it seems to be  
Still, I've been fighting all week  
Though I don't know what for  
Hoping someone else, somewhere near knows the score  
Won't you please  
Knock me off my feet for a while?  
Could you please  
Knock me off my feet for a while?

And there's a galaxy of emptiness tonight  
There's a galaxy of emptiness tonight  
A whole galaxy of emptiness tonight

Monkey see, monkey do  
I spent my whole life surrounded by people like you  
With all that expectation to weigh heavy on your heart  
But no ideas to later tear it all apart  
Won't you please  
Knock me off my feet for a while?  
Could you please  
Knock me off my feet for a while?

'Cause there's a galaxy of emptiness tonight  
A whole wide galaxy of emptiness tonight  
Beware the galaxy of emptiness tonight  
'Cause there's a galaxy of emptiness tonight  
A whole wide galaxy of emptiness tonight  
Yeah, there's a galaxy of emptiness  
A whole wide galaxy of emptiness tonight  
Beware the galaxy of emptiness tonight  
(A galaxy of emptiness)  
(A whole galaxy of stars)
