

It's This I Am I Find

Beth Orton

I'm that great divide
That never was at all

That's neither large nor heavy
That's neither light or small
There always was and will be
Forever and through all time

Cause here and there and nowhere always is

It's this I am I find
It's this I am I find
It's this I am I find

When all is one another
Yes one is all mine
Serenely flowing ever
Beyond the tide

The flower blows away
Cause I am but one too
Unless I pray and break up
Really, not at all

A dream smiles at me
I've been here all the time
I've been here all the time
It's this I am I find.
