

## It's This I Am I Find

Beth Orton

I'm that great divide  
That never was at all

That's neither large nor heavy  
That's neither light or small  
There always was and will be  
Forever and through all time

Cause here and there and nowhere always is

It's this I am I find  
It's this I am I find  
It's this I am I find

When all is one another  
Yes one is all mine  
Serenely flowing ever  
Beyond the tide

The flower blows away  
Cause I am but one too  
Unless I pray and break up  
Really, not at all

A dream smiles at me  
I've been here all the time  
I've been here all the time  
It's this I am I find.
