

# Release Me

Beth Orton

That we must fly is a ?? thing  
And nothin' can stay forever locked in  
I'll take your blame like a ball and a chain  
I'll wear it 'round my neck  
I won't feel no shame

Breakin' waves on the shore  
It turned then fade once more  
Release me from this love  
If it's ours it'll come  
Release me from this love  
If it's ours it'll come  
Release me  
Release me from this love

Don't want no sympathy  
Draggin' me down  
Makin' me sorry  
When we can wake up and see  
All that we never knew to be

Breakin' waves on the shore  
It turned then fade once more  
Release me from this love  
(Release me from this love)  
If it's ours it'll come  
Release me from this love  
(Set me free with your love)  
If it's ours it'll come  
Release me  
Release me from this love

Breakin' waves on the shore  
It turned then fade once more  
Release me from this love  
(Release me from this love)  
If it's ours it'll come  
Release me from this love  
(Set me free with your love)  
If it's ours it'll come  
Release me from this love  
(Release me from this love)  
If it's ours it'll come  
(Release me from this love)  
(Set me free with your love)  
If it's ours it'll come  
Release me  
Release me from this love  
Release me  
Set me free with your love

Yeah...
