

Never Gonna Be (C'mon C'mon)

Bethany Joy Lenz

Everybody else knows how this goes
Everybody knows how wide and how much and how far
Everybody's got my number now
Maybe I can find a way out
I've been running too long on this shift
And I've been keeping tabs on myself
And now I'm cutting close in on my limit
And I think I heard somebody say

You're never gonna be anybody else
You're never gonna see until you see yourself
So come on come on see how it goes
Come on come on take a deep breath
And don't let go
