

## Power Within

### Better Than a Thousand

You blame it on your youth, blame it on your luck  
Blame it on your family, they didn't give a fuck  
Blame it on your poverty or because you're rich  
Blame it on the one you love and label her a bitch  
POWER WITHIN  
We've got the power

You blame it on the weather, but I think it's bizarre  
That you blame it on astrology and all of the stars

POWER WITHIN  
We've got the power

Blame it on your country, blame it on your town  
Blame it on your neighborhood, you want to burn it down  
Blame it on your culture, blame it on your genes  
Blame it on New york,L.A., and all that's in between

POWER WITHIN  
We've got the power

Sick of all these excuses, they're not good enough for me  
Now's the time to rise and take responsibility

POWER WITHIN  
We've got the power

Life will force a change-will we improve?  
Choices dictate if we win or lose  
Leave the past behind, now we'll begin  
We must find the power, the power within
