

## Falling Apart

Better Than Ezra

Well, I've been looking in your eyes  
And you've been looking in my eyes  
Well, there's a reason you came to this tonight  
There's a reason you came to this tonight

Can you tell me?  
Can you tell me why things are falling apart?  
There's a reason, there's a reason

Can you tell me?  
Can you tell me why things are falling apart?  
There's a reason, there's a reason

All the fish in the ocean  
To all the birds in the sky  
To all the hearts that are broken  
Well there's a reason you came to this tonight

Can you tell me?  
Can you tell me why things are falling apart?  
There's a reason, there's a reason

Can you tell me?  
Can you tell me why things are falling apart?  
There's a reason, there's a reason

But this world is not our own  
Though we thought that it could be  
Yes this world is not my own  
Though I wish that it could be

Can you tell me?  
Can you tell me why things are falling apart?  
There's a reason, there's a reason

Can you tell me?  
Can you tell me why things are falling apart?  
There's a reason, there's a reason
