

# Hung the Moon

Better Than Ezra

They say you're off (a bit confused)  
But when the day is done  
I'll be with you  
I like your eyes  
They say you're true  
The others whisper and lie

And you framed the sun  
Shot out the stars  
You paled the sky  
And hung the moon

They say "your loss"  
That your mind's diseased  
But when you finally won,  
Tell me who always believed

Down way low  
They never remember  
Down way low  
Down way low  
You always remember  
Don't let the words you hear leave your head.

They say you're gone  
That you left today  
But if you change your mind  
Know I still feel the same way

Down way low  
They never remember  
Down way low  
Down way low  
You always remember  
Don't let the words you hear leave your head.
