

Road Trip to Athens

Better Than Ezra

Time is lost in motion
Are we already there
Twenty-first breaks(?)

And I recall
See island cotton(?) shirt you wore
And the way they played around your neck

I have been told
You would be there
You said last it's time for a
Road trip...to athens
Road trip...to athens

Tear me up
I swear I won't remember
No I won't remember a single word
There he was
I swear I saw him walking
When I walked into the georgia bar

I have been told
They would be there
You said last it's time
For a road trip...to athens
Road trip...to athens

Whoa, we smile in silent recognition
Playing their new release(?)

Road trip..
To athens
Road trip..
To athens
Road trip
Road trip
Road trip
Road tr-i-i-i-ip
