

## Turn Up the Bright Lights

Better Than Ezra

It's a lot like fire.  
taking that the first step on to the street.  
The whole night before you, spreading out  
like a techno colored dream.  
So take this city into your arms and hold it  
like a kiss.  
Don't it feel like flying, darling, what could  
be better than this.  
Turn up the bright lights, light up the world  
tonight.  
Shine like the stars shine above and sail away.  
Turn up the bright lights....  
On a Paris morning, long before the sun was debt  
to rise. Walking on the river, reflecting diamonds  
in your eyes.  
so take this city and catch your breath, and listen to  
yourself. Cause you move like music, darlin' in a moment  
you'll be gone.  
Turn up the bright lights, light up the world tonight  
shine like the stars shine. Turn on the mystery
